AMENDMENTS TO THE DRAWINGS

The attached replacement sheet and annotated sheet of drawings indicates the replacement of Figure 1.

Attachments: Replacement Sheet of Drawings (1)
Annotated Sheet of Drawings (1)

REMARKS

By the present response, Applicant has amended the specification and Figure 1 of the drawings and canceled Claims 6-7. Claims 1-4 remain pending in the present application. Claim 1 is the sole independent claim.

The Examiner rejected Claims 6 and 7 under 35 U.S.C. 112, first paragraph as being nonenabling. Specifically, the Examiner states that Applicant has not disclosed structure in the specification for the click and hold mechanism recited in Claims 6 and 7. Applicant has canceled Claims 6 and 7 by the present amendment. It is respectfully submitted that the present application, as amended, is in compliance with 35 U.S.C. 112, first paragraph.

The Examiner rejected Claim 5 under 35 U.S.C. 112, second paragraph as failing to point out the subject matter which Applicant regards as the invention. Specifically, the Examiner notes that Claim 5 is incomplete and inaccurate in defining the longitudinal slit. Accordingly, Claim 5 has been canceled by the present amendment. It is respectfully submitted that the present application is in compliance with 35 U.S.C. 112, second paragraph.

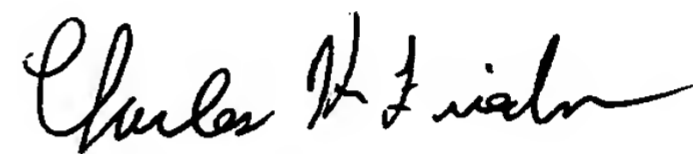

The Examiner objected to the drawings as not showing every claimed feature, specifically the click and hold mechanism and the indicia. The click and hold mechanism has been canceled from the claims, and the indicia has been called out in Figure 1 as reference numeral 74.
